2026 FALL CATALOG

A tradition of QUIET INNOVATION

1851-1852

Due to the scarcity of land and opportunity in Germany, the Fromms and Niemans immigrate to the United States of America where land and opportunity are plentiful. They settle in Cedarburg and West Bend, Wisconsin.

1883

Dairy farmer, Fredrick Fromm, marries Alvina Nieman. Alvina receives a 160 acre farm as a wedding gift from her father Joachim Nieman. Alvina and Fredrick go on to raise nine children together including Walter, Edward, John, Henry, and Erna.

1904

Walter, Edward, John and Henry Fromm form "The Company" on their family farm in Hamburg, Wisconsin. The brothers, ages 10-16, start growing ginseng in a small area of land their father allows them to use.

1916

Alvina Nieman-Fromm declares, "What good is land unless it gives a family a start in life?" and co-signs a \$6,800 loan with her farm as collateral to purchase 3 silver foxes for the four Fromm brothers to continue to carry out their business plan.

1925

Fromm Bros. Nieman Company builds its own food manufacturing plant in Mequon, Wisconsin. This allows them to continue producing their own nutritionally-gearred recipes at a volume sustainable to their growing demands.

1939

Fromm Laboratories is the first to develop and market a fox, canine, and feline distemper vaccine. This pioneering legacy in pet health and nutrition continues today with the development of Fromm Family Nutritionals.

1941

Nieman's Meteor "Fresh/Frozen" Raw Dog Food is sold and marketed as the first scientifically-formulated dog food produced by an animal food company producing food for their own use.

1940s

With the expertise of Willard "Doc" Roberts, PhD, Fromm begins the research and development process to create the first complete and balanced dry dog food utilizing feeding trials with more than 50,000 foxes and dogs.

1949

Complete & balanced dry dog food is born. Fromm Complete Dog Meal is marketed with the tag line, "Fifty-thousand foxes can't be wrong," referencing Fromm's extensive, unprecedented, scientific feeding trials.

1970s

Fromm ventures into lifestyle-specific formulas with recipes like "Hi-Stress" food for working dogs.

1985

Tom returns to Wisconsin with his wife Kathy and newborn son Bryan to take the reins of the family business after the unexpected passing of his father and grandfather. Tom brings a Chemical Engineering degree from the University of Wisconsin-Madison and professional experience from a Minnesota company.

fromm® *Family* PET FOOD

FAMILY OWNED *and operated for 5 GENERATIONS*

Why Fromm? Because caring more matters – and has for five generations and counting. It starts with a dedication to providing exceptional foods to pet families everywhere. It's a driving force to do things better; to discover new products that bring health, happiness, and wellness to our beloved four-legged family members. And caring more means a hands-on family from the top office to the factory floor, sweating the smallest details and setting the highest standards, so our proud reputation for innovation, value, and quality lives on for generations to come.

Today, Tom, Kathy, Bryan, and Dan Nieman proudly represent the fourth and fifth generations of a family business that's still focused on new and better ways to add health and happiness to the next generation of pets and pet families everywhere.

PREPARED WITH *Extraordinary Care*

When doing things the right way is the only option, you have to do it yourself. That's why we own and run our own production facilities right here in Wisconsin. It gives us total control of the process and allows us to maintain our own exceptional standards of quality and safety. That means every bag and can of our cat and dog food comes from a place where we control every aspect of the process and can guarantee a food that is prepared with extraordinary care. Our relentless attention to process gives us complete control over:

- Sourcing of ingredients
- Formulation and blending
- In-house lab analysis
- Employee training
- Preparation of meat and produce
- Packaging, warehousing, and distribution
- Facility maintenance and sanitation
- In-house customer service

IT STARTS WITH THE *Best Ingredients*

Our farming roots in Wisconsin started on our pioneer farm in 1852 and are still active to this day. In that time, we've learned a great deal about the diligence and dedication it takes to grow and raise foods worthy of the family table. All of our recipes require high quality ingredients, so our suppliers are trusted, carefully selected, and held to the same high standards we demand of ourselves. The reason is simple: Because in the end, like all farmers, we're feeding family.

- High Quality Meat & Fish • Wisconsin Cheese • Pre and Probiotics
- Farm Fresh Produce • Whole Grains

Safety YOU CAN TRUST

As a family business with a legacy of doing things right, we respect the trust that pet families place in the foods we prepare. We have exhaustive systems in place to ensure quality, consistency, and uncompromising integrity. That means putting in extra effort, with stringent safety measures employed at every stage of our production process to keep our products safe, reliable, and nutritious.

- HACCP program implementation (Hazard Analysis & Critical Control Points)
- Strict Approved-Supplier program
- On-site raw ingredient testing
- On-site in-process testing
- Accredited third-party finished goods testing

Dedicated People MAKE THE DIFFERENCE

Our family is proud to work side-by-side with some of the most talented, passionate, kind-hearted, and amazing people we've ever met. From the plant floor to the office suites, every member of our extended Fromm "family" is part of a purpose-driven team, all proud to go the extra mile to make, sell, and distribute the finest foods possible.

1980s

Fromm pioneers the use of mixed tocopherols as a natural preservative in pet foods. Mixed tocopherols remain the most popular natural preservative in pet food today.

1990

Fromm "New Formula" is launched with the tag line, "More isn't better. Better is better," referencing protein quality vs. protein quantity. In feeding trials, Fromm "New Formula" measured much higher digestibility than its high-protein rivals.

1999

Fromm Gold is introduced to commemorate Fromm Meal's Golden Anniversary and boasts a blend of duck and chicken with whole eggs, Wisconsin cheese, and added probiotics.

2003

Fromm Four-Star is launched - the market's first variety-driven, interchangeable pet food line. Pet parents may rotate between a variety of all life stages recipes.

2009

Fromm purchases and begins retrofitting a vacant late 1960s feed mill in Columbus, Wisconsin, reviving a landmark and expanding the business without a single dollar of outside investment.

2010

With the Mequon, Wisconsin plant running production 24 hours, 6 days a week, Fromm successfully starts producing product at the new Columbus facility, adding 60 Wisconsin jobs and supporting stellar growth.

2014

What began with the first successful Petfest grows into a decade of family fun, pet-friendly entertainment, shopping, and community, as Fromm continues supporting Milwaukee pets with a downtown dog park.

2015

Fromm opens a family-owned-and-operated cannery to expand can offerings for dogs and cats while ensuring the quality and consistency that Fromm is known for.

2018

Fromm opens a treat production facility in Germantown, Wisconsin and launches Crunchy Os, followed in later years by Tenderollies and PurrSnackity Treats.

2020

Fromm becomes The Official Dog Food of Dogs Inc providing quality dog food for working guide dogs and service dogs at no cost to the handlers.

2024

Bonnhill Farms gently cooked frozen food with fresh ingredients dog food is launched. The small-batch sous vide recipes are prepared in a purpose-built new addition to the family-owned Columbus manufacturing facility.

2025

Fromm introduces Fromm Family Nutritionals, a functional product line delivering targeted nutrition and continuing our legacy as pioneers in pet health and nutrition.

FIVE GENERATIONS & COUNTING

Tom and Kathy's sons, Dan and Bryan Nieman, representing the 5th generation of the family business, are intricately involved in the business and committed to carrying on the family legacy of quiet innovation.
